Minibeast Pebbles

You will need:

- Smooth pebbles
- Paint
- Paintbrushes
- Black felt-tip pens
- PVA glue
- Pipe cleaners

First, look at what colour your chosen minibeast is and paint the whole pebble this colour. You might want red for a ladybird, black for a spider or yellow for a bee! Let the paint dry before continuing to make your minibeast pebble.

Next, use the black pen to draw on some details, like spots onto your ladybird or stripes onto your bee.

Next, stick some googly eyes onto your pebble.

Then, cover the whole pebble in PVA glue to seal it.

Finally, stick some pipe cleaners onto your pebble for the spider's legs or the bee's wings and let it dry.

Minibeast Pebbles

You will need:

- Smooth pebbles
- Paint
- Paintbrushes
- Black felt-tip pens
- PVA glue
- Pipe cleaners

Step 1

First, look at what colour your chosen minibeast is and paint the whole pebble this colour. You might want red for a ladybird, black for a spider or yellow for a bee! Let the paint dry before continuing to make your minibeast pebble.

Step 2

Next, use the black pen to draw on some details, like spots onto your ladybird or stripes onto your bee.

Step 3

Next, stick some googly eyes onto your pebble.

Step 4

Then, cover the whole pebble in PVA glue to seal it.

Step 5

Finally, stick some pipe cleaners onto your pebble for the spider's legs or the bee's wings and let it dry.
